

## Health, Safety and Security Workshop for Israeli Partners

February 4<sup>th</sup> – 5<sup>th</sup>, 2020

International students often experience cultural, social, psychological and academic adjustment issues in a new environment and a new culture, away from family, friends and familiar surroundings. As a result, they may feel lost, lonely and pressured. HEI's promoting international student programs need to be able to provide appropriate services.

Presented by Professor Mooli Lahad, Dr Ruvie Rogel and Dr Jonathan Kaplan, this two-day workshop will focus on issues pertaining to the experience of studying in a foreign country, equipping participants with a basic knowledge of the situation and suggestions on how to provide a supportive environment for these students. It will also highlight the importance of providing information and guidelines on security and safety in times of national crises to the students. Protocols and regulations will be presented and discussed along with training via simulations and role plays.

This workshop is specifically targeted at administrative staff from the international office, the student union staff, Dean of Students, on-site mental health support counselors, and Head of Security, and we wholly encourage their attendance at the workshop.

The workshop will take place on February 4<sup>th</sup> and 5<sup>th</sup>, 2020, at Tel Hai College in the Mashabim, [Community Stress Prevention Center](#), in Kiryat Shmona. Travel and accommodation details will follow shortly.
